Subject: RE: New Forest Association

Hi Sue

Good to hear from you - hope you are well.

We broadly support the NFA's position on the future of the forest estate but as with all local National Park Societies, the response goes into a level of geographical detail on local issues that we are not best placed to comment on. We will be responding to the independent panel's call for evidence by the end of the month and our statement will reflect the views of the NFA as well as those of other Park Societies and other Council members.

Hope that helps.

Best wishes

Ruth
