

'Park Life' Distribution

November 6 2008 at 7:00 PM

Guest (Login [pigsinplingle](#))

I thought forum members might be interested in this reply from the NPA about who should get Park Life:

Do you get your copy? If not contact Linda Ryan.

Dear Mr Sutcliffe

Thank you for your e-mail. I will send the stickers to you in todays post.

Regarding your enquiry about Park Life, we use a distributing company to deliver Park Life to all homes within the National Park and on its borders. The postcodes where we deliver are:

BH23, BH24, BH25, SO40, SO41, SO42, SO43, SO45, SP6, SO51, SO16, SP5

Whilst we endeavour to deliver to all properties there are circumstances where copies may not reach their destination, for example

1 If a notice at a property requests no leaflets.

2 If there is a dog which is not under control and might appear aggressive in the front garden of a property.

3 A delivery is not carried out by the person that has been asked to post it through the letter box.

I will be contacting our distributor to ask if they have experienced a problem with delivering to your postcode area ?

As mentioned we do ensure that libraries hold for reference copies. Regrettably we are not able to provide more copies to the libraries (although we would like to) as they express the need to keep to a minimum number of 5 copies due to their lack of space.

Thank you for drawing this matter to our attention.

Kind regards

Linda Ryan

Park life

November 8 2008, 10:06 AM

We live in BH24 within the Park and have never received Park Life. I have spoken to several of my neighbours and they haven't either.1
I have emailed the NFNPA and have asked them to investigate their appalling distribution record, I have not received a reply - no surprise there then!!!!
Our letter box is beside the gate at the end of our long driveway, so the dog excuse won't wash in this case!!!!!!

November 8 2008, 10:24 AM

Me in BH23 as well but outside the national park boundary - don't believe they would deliver to whole of bh23 and bh24 since they stretch through Wimborne across to Poole!

Sent this off to the NPA this morning. Anyone else not receiving their copy of Park Life, let me know and I will forward them on to Efford.

Hi Linda,

You state three reasons why Park Life might not be delivered to the postcodes you intend should receive a copy.

The only one that would apply in my case is number three.

If your distributors are so shy of dogs why not employ the Royal Mail, they do a fine job of delivering mail, dogs or not. The NPA have a woeful record of not informing the residents of the NFNP of their proposals/policies/actions and this sounds like another feeble excuse to keep us in the dark.

You have a responsibility to keep us all informed, if you are committed to doing that and your current distributor can't help you achieve it, then sack them, and employ a company that can.

Glenn

I am SO41 inside the Park and we don't get it delivered here. The NF post don't deliver to us either. Could this possibly be connected do you think?

RE Park Life

November 8 2008, 8:52 PM

I also live in so41,i get New Forest Post but not Park Life.
There is no reason for them not to deliver to me.

Park Life distribution -

November 9 2008, 2:17 PM

It hasn't reached me in SP6. The NFDC publication has though.
I do hope that they aren't counting it as part of their "consultation".

Park Life Lack of Distribution

November 11 2008, 11:05 PM

I have conducted my own little survey from this post and it makes for quite shocking reading.

Of the 12 postcodes quoted as being on the distribution list, there are threads on this post that take 9 of the postcodes off the distribution list!

I have made a little chart, the top line is a list of the post codes on the NFNPA distribution list for Park Life.

The second line is a list of postcodes posted on here as having not received Park Life!!!

Distribution list - BH23, BH24, BH25, SO40, SO41, SO45, SP6, SO51, SO16, SO42, SO43, SP5

Not received list- BH23, BH24, BH25, SO40, SO41, SO45, SP6, SO51, SO16

Do you think that someone had the most spectacular bonfire on Nov 5th with thousands of Park Life leaflets for fuel?

I am in SO45 but I DID get it so I think the distribution is patchy within those areas!

fao Cheryl re Park Life

November 12 2008, 8:10 AM

Surely Cheryl whether you did or did not get a copy is the point?

Has the NFNPA not got access to the Electoral role?

They would find your address fast enough were they to wish to hit you with an enforcement notice if your horses did not live at home!

I have had an email asking if I would like to be added to their distribution list.

May I suggest that all those who read this thread who did not receive a copy also email Linda Ryan at address below and ask to be added as well!

linda.ryan@newforestnpa.gov.uk

After all the residents of the New Forest are entitled to know what is going on within the NFNPA!!!

It is our way of life that is under threat since they came into office!!!

Re: 'Park Life' Distribution

November 12 2008, 8:41 AM

Aud, I was just pointing out that not everyone in all of the post codes mentioned, did not get a copy and that distribution is probably patchy within each of the areas mentioned and I am sure some people in the other areas did not get a copy either! I live in a close that does not receive the new forest post, the new forest advertiser (houses for sale paper) very little advertising matter and very little other community reading matter so I am often completely unaware of what is going on locally unless somebody is kind enough to point things out to me.....but I DID get Park Life and I do get lib dem info!

Is the Autumn/Winter Park Life edition adequate notification? November 12 2008, 1:40 PM

As a SP6 postcode resident I also have never received a delivered copy.

When did people receive the Autumn/Winter edition because as far as I am aware it only appeared on the NFNPA website in late October. Also I cannot find any reference to the draft plan and draft recreational strategy in the previous Spring/Summer 2008 edition on the website. So how can the NFNPA claim that this is adequate notification?

P.S. I was not aware of the website either until I started to look at the draft plan in early October.
